

## Your Support Matters

Providence Benedictine Nursing Center

Providence Benedictine Nursing Center Foundation connects people like you to Providence Benedictine Nursing Center to provide high quality, compassionate and whole-person care for seniors and other vulnerable people in the mid-Willamette Valley. We are the bridge between you and Providence caregivers working every day to save and improve peoples' lives.

Our donors advance programs in our skilled nursing center, assisted living center, home health program and child development center. In recent years, donors have provided our residents with a renovated therapy garden, including adding a dry-streambed rock feature and colorful new plants and flowers, and grown an endowment to maintain our gardens. They have enhanced our residents' dining experience through improvements to our kitchen and dining room. And, donors have provided low-income and vulnerable people in our home health program with medical- and health-related items they needed to continue living in their own homes.

Today, health care needs in the Willamette Valley continue to grow and change. More elders and vulnerable people in our community need care and support, including many who are unable to afford the full cost of the care they receive at our center. And more people want to age as independently as possible in their own homes, leading to greater demand for high-quality professional home health care.

### How you can help

To meet the needs of these people, your support is needed more than ever before. Here are a few areas where you can make a difference:

- **Area of greatest need:** Patients can continue to access our skilled nursing and assisted living facilities regardless of their ability to pay, while allowing us to continue providing high quality, compassionate and holistic care to all we serve.

- **Landscaping and gardens:** Our residents, patients and their families continue to benefit from our beloved therapy garden as we remove and replace trees and plants destroyed by the recent ice storm.
- **Equipment:** Low-income patients in our home health and skilled nursing programs benefit from medical equipment that aids their treatment and recovery but that is not covered by private insurance, Medicare or Medicaid.
- **Home health:** People served by our home health program benefit from care enhanced by equipment, palliative care training for our staff, and therapies like massage, acupuncture and thanatology.

## Contact us

For more information about how you can positively impact the health and wellness of our community, please contact Phil McCorkle at 503-845-2763 or [Philip.McCorkle@providence.org](mailto:Philip.McCorkle@providence.org).

## Providence Oregon

Providence Benedictine Nursing Center is part of Providence Oregon, a not-for-profit network of hospitals and centers, health plans, physicians, clinics, home health services, and affiliated services operating throughout Oregon. Our caregivers pledge to care for all people who come for services and seek out the unmet needs of those who lack essentials. In total, we serve more than one million people throughout Oregon and southwest Washington.

### OUR MISSION

As expressions of God's healing love, witnessed through the ministry of Jesus, we are steadfast in serving all, especially those who are poor and vulnerable.

### OUR VALUES

Compassion, Dignity, Justice,  
Excellence, Integrity

Inspiring Generosity ♥
