

Your Support Matters

Providence Portland Medical Foundation

Providence Portland Medical Foundation connects generous donors with Providence Portland Medical Center to promote health and wellness in our community, care for the poor and vulnerable and advance medical research with international impact. We are the bridge between you and Providence caregivers and researchers working every day to save and improve peoples' lives.

Our donors advance outstanding care and patient experiences at one of the nation's 100 Best Hospitals. They have been essential to establishing the international reputation for cancer immunotherapy research at the Earle A. Chiles Research Institute and have advanced cancer treatment through the purchase of state-of-the-art equipment. They have provided medical equipment, essential baby supplies and resources to families with newborns. Thanks to donors' generosity, heart patients have increased access to life-saving cardiac rehabilitation, and out-of-town patients and their families have comfortable and convenient guest housing. Recently, generous contributors purchased equipment and built facilities crucial to the fight against COVID-19.

How you can help

Today, the health care needs of our community and world continue to grow and change. Your support is needed more than ever before. Areas where your gift will make a difference now include:

- **Cancer research and support:**
 - Propel groundbreaking immunotherapy research to help people with thyroid and breast cancer, leukemia, lymphomas, advanced melanoma and other cancers.
 - Give practicing oncologists time to collaborate with researchers on the transfer of life-saving treatments from the research bench to the patient's bedside.
 - Advance an innovative cardio-oncology program to improve outcomes for the fast-growing number of patients whose cancer treatments may impact their hearts or vascular systems.
 - Ensure that every cancer patient has access to care, regardless of their ability to pay, by paying for treatments and rehabilitation not covered by insurance as well as integrative medicine, breast cancer outreach, and other support services.

- **Cardiac rehabilitation:** Provide patients and community members innovative and no-cost heart disease prevention and wellness programs.
- **Neonatal Intensive Care Unit:** Help premature babies grow and thrive in our NICU, through state-of-the-art equipment, excellent care and support coupled with education to help parents navigate the new world of having a premature baby
- **Guest housing:** Create a place of respite through the construction and ongoing operational support for our hospital guest house that provides patients and families a comfortable place to rest during stressful circumstances

For more information about how you can advance the health and wellness of our community, please contact Chelsea Sokolow at 503-215-6186 or Chelsea.Sokolow@providence.org.

Providence Oregon

Providence Portland Medical Center is part of Providence Oregon, a not-for-profit network of hospitals and centers, health plans, physicians, clinics, home health services, and affiliated services operating throughout Oregon. Our caregivers pledge to care for all people who come for services and seek out the unmet needs of those who lack essentials. In total, we serve more than one million people throughout Oregon and southwest Washington.

OUR MISSION

As expressions of God's healing love, witnessed through the ministry of Jesus, we are steadfast in serving all, especially those who are poor and vulnerable.

OUR VALUES

Compassion, Dignity, Justice, Excellence, Integrity

Inspiring Generosity ♥
