

When you give,  
healing happens.

## Foundation Mission In Action

The YWCA is focusing on economic empowerment, educational advancement, health/wellness, and leadership development. Covenant Health is excited to be a part of this vision by opening the on-site Covenant Community Wellness Center. We will be offering on-site access to mental health services, health education, children's preventative dental services, community navigation, flu vaccinations, social services referral, and more. Covenant Community Outreach, CMG and CHP will be working together with the YWCA and with other community non-profits to become a one-stop resource center for the community to promote wellness and prevention.

Covenant Health Foundation provided nearly 93,000 masks to school districts in West Texas and Eastern New Mexico. The Foundation partnered with Covenant Children's to create a children's health initiative for a safe return to school.

We have partnered with Lubbock Area United Way this year to bring Covenant's two largest caregiver giving campaigns together for the Power of One Heart campaign. This year, caregivers are encouraged to give to their fellow caregivers and community members.

Speaker Series Event with Sheila Walsh has been postponed. Join us on April 15<sup>th</sup> for a virtual and live event.

## A Note From Our Leader

Covenant Health Foundation continues to offer our support through the pandemic and are adapting daily to new challenges, just as I know many of you are. Our caregivers have consistently exhibited perseverance and resilience. We cannot thank and honor them enough as they continue to care for our community.

I want to give a warm welcome to volunteers receiving our newsletter for the first time. We are eager to have you back in our hospitals, and are continuing to develop initiatives to ensure we are providing the best service possible to our West Texas and Eastern New Mexico communities.

Hopefully you enjoy hearing the latest from the Foundation team. As always, contact them should you have any questions.

Stay well,

Troy Tucker

## Compassionate Caregiver

My name is Jordan Casel, and I am one of the new Health Screeners for the Patient Satisfaction department. I joined the team September 8th and have loved every second of it. I have adjusted well to a new team. I love helping every single visitor and/or patient I come across.

When I am not working, I enjoy running after three dogs and my boyfriend of two years. I hope to pursue a career as a CRNA, and I look forward to working with some of the best nurses in Lubbock. Working with Covenant has been the biggest blessing of 2020.

---

## Our Devoted Donors

Covenant Health has been blessed with an outpouring of support from our community. Below are very few of the many community partners that have blessed us with food, supplies and monetary donations. We will continue to express our thanks to donors in each newsletter. Extend your gratitude to them by thanking them and/or using their services when possible.

## Supporting Our Mission

# American Cancer Society Grant

The American Cancer Society (ACS) recently awarded a grant to Joe Arrington Cancer Research and Treatment Center (JACC) to address the transportation needs of cancer patients in the West Texas and

Eastern New Mexico region. Community Transportation grants are available to health systems, treatment centers and community organizations in select communities through an application process, and they focus on addressing unmet transportation needs of cancer patients, particularly vulnerable populations experiencing an unequal burden of cancer.

The grant received by JACC, totaling \$7,500, will provide assistance to patients with gas cards, taxi costs, and wheelchair transportation.

Cancer patients undergoing treatment often require assistance getting to and from facilities, which can create a financial and logistical burden. According to the ACS, without transportation, many patients may not be able to follow their treatment plan as prescribed by their health care team.

Transportation programs are vital to help patients get the treatments they need and deserve and the Covenant Health Foundation and JACC are excited to participate with the ACS on this wonderful program!

For additional information, contact the Covenant Health Foundation at 806-725-6089.

## Your Gift Matters

As this year draws to a close, please consider the Covenant Health Foundation in your year-end giving plans. Contact our team to learn more about how you can fulfill your philanthropic goals while enjoying tax savings and income advantages.

---

## Prayer for our Future

May today there be peace within. May you trust God that you are exactly where you are meant to be. May you not forget the infinite possibilities that are born of faith. May you use those gifts that you have received, and pass on the love that has been given to you. May you be confident knowing you are a child of God. Let this presence settle into your bones, and allow your soul the freedom to sing, dance, praise, and love. It is there for each of us, through Jesus Christ our Lord. Amen
