# \$4.6 Million Raised

**100% of donations go directly to programs and services at Providence hospitals and ministries in Spokane and Stevens counties, NOT to salaries and overhead.**

## Creating Healthier Communities Together

The Providence legacy in the Inland Northwest dates back to 1886 when Mother Joseph and a small group of Sisters of Providence opened the region's first hospital, on the banks of the Spokane River. Even then, the Sisters relied on philanthropic support to further their work.

Providence Health Care Foundation continues this tradition today, funding projects and programs to help ensure all individuals in Spokane and Stevens counties have access to the most advanced, compassionate health care available. We are committed to developing centers of excellence in areas that include cardiac care, oncology, neurology and children's health. These specialized programs supply exceptionally high concentrations of expertise and resources delivered in a comprehensive, interdisciplinary fashion.
