

YOUR DONATIONS AT WORK:

“ Recently, *foundation dollars funded the purchase of three nitrous oxide machines* for use in the hospital emergency department, the freestanding emergency department at the pediatrics unit.

We are excited to be able to *offer minimal sedation and anxiolysis for painful procedures* for adult and pediatric patients in our community who receive care at Kadlec. *This service would not have been possible without the generosity of donors like you.*

Thank you for your support!
