Comedian, Actor, and Author **Colin Quinn** has become one of the most beloved voices in comedy, with a focus often on the roller coaster ride that American politics and culture has historically been. His beloved commentary on news headlines dates back to his popular 1990s run hosting “Weekend Update” on NBC’s iconic *Saturday Night Live* and as host of Comedy Central’s classic fan favorite series *Tough Crowd with Colin Quinn*.

Colin’s HBO Max special *Colin Quinn & Friends: A Parking Lot Comedy Show* premiered on November 12, 2020. Part documentary and part standup showcase, Colin headlines and directs the hour. A time capsule of standup during the first year of the Covid-19 pandemic, *Colin Quinn & Friends* documents what live entertainment was at that moment and how those conditions affected the art form.

In addition to his special, Colin released his new book *Overstated: A Coast-to-Coast Roast of the Fifty States* on St Martin’s Press on September 22nd, 2020. The book was included in NPR’s *Favorite Books of 2020*.

Overstated comes off the heels of his most recent one-man show, *Red State Blue State*, which premiered in January 2019 to rave reviews at The Minetta Lane Theatre in New York City. *The New Yorker* lauded the hour as “among Quinn’s funniest so far” and *The New York Times* lovingly described Quinn as a “barstool philosopher.” The show aired on CNN as the network’s first comedy special in May 2019 and is currently streaming on Netflix. *Red State Blue State* followed the wildly successful off-Broadway run of *Colin Quinn: The New York Story*, directed by Jerry Seinfeld, and *Colin Quinn: Long Story Short*, which garnered a Drama Desk Award nomination.

*Thank you for choosing to support
Providence St. Joseph Hospital Foundation!*

*Providence St. Joseph Hospital
Foundation presents "Laughter is
the Best Medicine 5!" A Night
of Comedy with Colin Quinn.*

DELIVERING TOMORROW'S CANCER CARE NOW, FOR ALL

More than 600 people every year on the North Coast are diagnosed with cancer. Affecting men and women, young and old, it crosses all socioeconomic boundaries; most of us have had a friend, family member, or even ourselves, impacted by this disease.

Our highly rated, nationally accredited Cancer Care Team already provides a phenomenal level of care for an area our size. Thanks to generous donors like you, Providence St. Joseph Hospital boasts technology and equipment at the level of a much larger, urban medical center.

But with the volume of cases predicted to increase, more must be done to provide the highest quality care possible—early, and accessible for all, not just the lucky few.

Funds raised at LBM5 will help provide:

- Clinical Trials granting local access to new possibilities in the search for a cure
- Nurse Navigators to guide patients through their treatment journey
- New, more comfortable chemotherapy chairs
- Cold Cap Technology to help prevent hair loss during cancer treatment
- A modernization of the outdated PSJH Cancer Care Center—including brighter and more hopeful surroundings, an outdoor chemo treatment patio, brand-new waiting area, exam rooms and more...

With your generous support we will make this happen for our community!

THANK YOU!
